1. At the present time there are 25 MIG 15's at the field. In the assembly hall parts are rapidly assembled and then sent out to the field in boxes by railway.
2. Since 21 February, there has been lively air activity during the day in cloudy and rainy weather. Recently, formations of 5-12 airplanes were observed.
3. On 25 February, the air activity only lasted 2 hours; on 26 February a jet fighter with 2 engines was noticed several times over the field. It did not land. On the front part there was a transparent cockpit and at the beginning of the last third of the tail there was room for a machine gun on the under side. The wings looked like those of the Me 110.
4. Truck [] drove out on the field fully loaded with airplane tires.
5. On the radio station at Rothe Mühle there are now eight antenna masts which are about 16 m. high and which are placed in groups of 4 and 4. They are placed irregularly. Cables, looking like German radio cables, are strung between two wooden radio houses and the farm Rothe Mühle.
